Phone Number

**Subject:** Feedback Regarding NYSUT Science of Reading Course

To: Commissioner Betty Rosa  
CC: Dr. Jeffrey A. Matteson, Maria Fernandez, Governor Hochul

Commissioner Rosa,

I am writing to provide feedback on the NYSUT Science of Reading course. Some of the information presented in the course does not accurately reflect research-based Science of Reading principles. Several components conflict with what I have learned through evidence-aligned training and practice, and in some cases the content appears to misrepresent essential concepts in reading development and instruction.

Specific areas of concern include:

- [insert concern here]
- [insert concern here]
- [insert concern here]

Because accurate implementation of the Science of Reading is critical for improving literacy outcomes for students across New York State, I believe it is important that NYSED be aware of these concerns. I respectfully urge NYSED to review the course content to ensure it aligns with the current body of research and best practices in structured literacy.

Thank you for your attention to this matter and for your continued commitment to supporting literacy education in New York.

Sincerely,  
[Your Name]  
[Your Position / District / School]
